## OTHER INFO

This Livermore Valley Cabernet Sauvignon is developed from vines that California wine pioneer Charles Wetmore brought from France in the 19th century. The Wente family farms approximately 400 acres of Cabernet Sauvignon vineyards matched to the soils and meso-climates with rootstocks and clones selected for each site. The Livermore Valley offers a climate ideal for growing red Bordeaux varieties, with a long growing season that develops ripe, round fruit flavours. Each vineyard was harvested separately and fermented in upright fermenters, with regular pumping over to increase colour and tannin extraction and improve mouthfeel. This wine was aged for 16 months in new and used French and Eastern European oak barrels as well as stainless steel tanks. Aging in stainless steel helps preserve fruit vibrancy in the wine.
